PRIVATE LABEL

Shown with optional hose trough with scale and adjustable hardstop

Capabilities

- **Cutting: 3/16 to 3"**
- **Skiving: 1/4 to 2"**

Features

- **Fast, efficient hose cutting**
- **10" cutting blade**
- **Easily adjusted, self-contained skiving mandrels**

The S1208 features a 10" cutoff blade designed to cut a variety of industrial hose including high pressure double-wire-braid and multi spiral hose in sizes 3/16" through 3" I.D.

The S1208 also includes an 8" wire brush that will skive hose in sizes from 1/4" to 2" I.D. The S1208 produces a straight, clean cut and clean skive on any hose within its range.

To reduce airborne contaminants and provide a clean environment, the S1208 includes a integrated self contained dust collector that is located directly below the saw with the machine base frame.

Note: The S1208 is not designed to cut braided hose with interwoven helix wire.

Features | Options

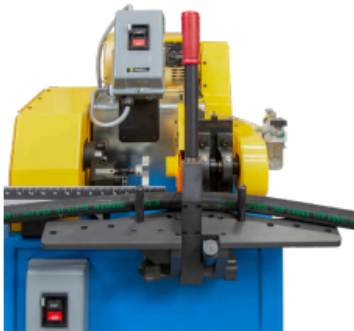

◀ Integrated Dust Collector.

▶ Optional Hose Pay Off Stand.

◀ Hose Mandrels for Skiving 1/4" to 2" hose.

▶ Optional Hose trough with scale and adjustable hardstop.
