# Hospital Delivery Robot A801 Highlights

---

The design of this robot for hospital is avant-garde and fashionable, meeting the sealing design requirements of medical supplies. It has functions such as heat preservation and moisturizing. Capable of independent positioning and navigation, this TUG robot hospital series can make reasonable planning of route operation, multi-sensor fusion, intelligent obstacle avoidance and other functional movements. This [hospital delivery robot](#) also has a powerful background management system to meet the needs of multi-tasking.
