Design & Channel Partnership

AGS-TECH's worldwide design and channel partner network provides a channel between our authorized design partners and our customers in need of technical expertise and cost-effective solutions in a timely manner. We provide consulting services, hardware and software design, and full turnkey manufacturing services from chip and semiconductor wafer level to final finished and packaged product. When you work with us, you avoid risky and lengthy search of partners for your electronic design, prototyping and manufacturing needs. In addition, you can have some parts or all of the work integrated and consolidated by us, so you don't have to deal with several or many different companies. Also you assure the most economic solution for your application as we are capable of choosing the right technology for you. We work with authorized design partners of major brand names such as Microchip and Intel at various locations around the globe and are therefore capable of assuring you the lowest prices, fastest lead times without compromise of quality. Having an established long term relationship with our partners, we have a priority status in every respect which will be reflected in your projects. We value our clients IP and will consult you prior to sharing any information with any partner.

Our value added services include:

- *TECHNOLOGY SELECTION*
- *ENGINEERING INTEGRATION*
- *SOFTWARE & HARDWARE & FIRMWARE DEVELOPMENT & INTEGRATION*
- *PROTOTYPING*
- *PRODUCT DEVELOPMENT*
- *PRODUCT & SYSTEM ASSEMBLY*
- *TRANSITION TO PRODUCTION*
- *MANUFACTURING*
- *TESTING*
- *QUALIFICATION & CERTIFICATION*
- *MULTI PROJECT WAFER (MPW) SERVICE*
- *LABELING AND PACKAGING*
- *OPTIMIZATION OF LOGISTICS*
- *MOST IMPORTANTLY - NETWORKING WITH AUTHORIZED BRAND NAME DESIGN PARTNERS AROUND THE GLOBE FOR ASSURING LOWEST PRICE AND FASTEST LEAD TIME WITH NO SACRIFICE ON QUALITY !*

We offer design partnership for applications involving famous brands such as:

janztec
Industrial Computing Architects

AVNET

Contact us for more information on how we can help you with your electronic design, prototyping, transfer to production, manufacturing, product improvement, product redesign needs. Through our network of authorized design and channel partnerships, we are your one-stop source for electronics hardware, software, firmware and engineering integration; reducing time-to-market through accelerated product design, while minimizing development cost and risk.
