# PRIVATE LABEL PROCESS & INSTRUCTIONS GUIDE FOR ABRASIVES

**WE CAN PUT YOUR COMPANY NAME AND LOGO ON THESE**

## PRIVATE LABEL ABRASIVES PROGRAM

### SIMPLE THREE-STEP PROCESS

#### REAP THE BENEFITS OF OUR PROGRAM

It couldn't be more simple to launch a product with your brand name, utilizing our Private Label Abrasives Program. We do all the work, all you have to do is make three quick and easy choices. We also have a full Art Department ready to assist you in anything you may need.

#### **STEP 1** CHOOSE YOUR PRODUCT

##### LABELED PRODUCTS – CHOOSE BETWEEN COATED, BONDED, AND NON-WOVEN ABRASIVES, AND CUTTING TOOLS

Reference our catalog for up to date product offerings as well as detailed information on each product category. Check back periodically, we will be adding and launching many new SKU's

**UNLABELED PRODUCTS – CHOOSE BETWEEN COATED ABRASIVES, NON- WOVEN ABRASIVES, AND WIRE WHEELS**

Our selection of unlabeled products are all premium grade and will be a perfect complement to any labeled product. A more comprehensive product offering will, without a doubt, enhance your brand and bring in new customers.

Wire Wheels & Brushes

**STEP 2 CHOOSE YOUR COLOR & DESIGN**

**THE PREMIUM DISC**

Our Premium choices allow you to choose your own colors. This is our recommended linen for our Private Label Abrasives Program. These designs will help define your brand and stand out from the competition. When selecting the layout from one of our premium options, keep in mind the look and feel of your brand and what you want to communicate. Some of our options include diagonal lines that convey more dynamic look; some of our options are bold and structured in a way that displays strength.

#### PREMIUM COLOR CHOICES

We make choosing quality label design easy. Let us do the hard work for you. With our exceptional prices, we can help you define your brand with products that appeal more to the customer than the competition can. No matter the industry, your product should be presentable, which reflects positively on your brand from your clients.

The psychology of color is important in any brand. How do you want your company to be conveyed? Safe and trusted? Bold and daring? Forward thinking and progressive? The choice in color can convey what your company stands for in the market, without even saying a word.

#### THE BASIC DISC

For our Basic option, we have the labels already printed with their color and design on them. This only leaves adding your company's information in black and white. This would be the fastest option to go with because they're ready to go for you.

Our more economical option offers a basic label design, engineered to bring your product to market quickly and efficiently. These pre-designed, ready-to-go labels take all the guess work out for you. This is an excellent option for those who need just a product label without investing a lot of time and energy into what the label needs to look like.

## THE PRODUCT LABEL

Both Premium & Basic discs will have the same information on it, only customized for your company's product. They will contain all 11 elements:

1. Your logo and company name
2. Disc Type
3. Abrasive Material
4. Disc Shape
5. Density
6. Max RPMs
7. Disc Dimensions
8. Abrasive Grit
9. Machine Type
10. Safety Symbols
11. Barcode

**STEP 3 CHOOSE YOUR QUANTITY, PACKAGING, & LABEL**

**QUANTITY**

Our Private Label Abrasives Program allows you to order as many products you want. Here we'll make sure to choose the appropriate box size to fit the amount of products you bought. Quantity size can range from 1 product to 1,000 products. There is no limit.

**BOX TYPE**

Your choice for box should depend on the amount of products you want to ship, the size of the products, which will affect the size of the actual box.

Manufacturer provides several box options to choose from: Kraft (Brown), White, White with logo, and your choice of color with logo.

#### THE PACKAGING LABELS

Your choice in the box label layout should depend on the information your customer values most. Do you need space for a UPC, control number, batch number, part number, etc.? The purpose of this label is to be as clear as possible with the information you need to convey, in a manner that makes the most sense to your client.

Manufacturer provides four different label designs with our 15 provided attributes. The labels are also available in black, white, and multi-color (Company colors).

1. Your logo and company name
2. Type of disc
3. Material
4. Disc Type
5. Density
6. Max RPMs
7. Disc Size
8. Grinder line drawing
9. Warning with symbols
10. Barcode
11. Grit
12. Box Quantity
13. Product Number
