Let us customize our robot and cobot platforms to your needs

We Specialize in Integrated ODM Project Management

AGRICULTURE

Tailored Off - Road Solutions

Autonomous mobile robots designed for agriculture use can accelerate the automation of agriculture.

The agricultural robots generally include:

- 1. A platform with autonomous moving system based on obstacle avoidance sensor system and RTK fusion navigation system;**
- 2. Intelligent functions, custom designed body fulfilling the specific application needs, such as: Delivery robots, fertilizer spraying robots....etc.**
- 3. A system for fleet management, remote round-the-clock monitoring of the technical conditions of the robot and its location;**
- 4. Automatic, highly reliable charging station, providing round-the-clock operation of robots without human intervention.**

Fertilizer or Pesticide Spraying Robots
